UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 8-K

CURRENT REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE

SECURITIES EXCHANGE ACT OF 1934

Date of report (Date of earliest event reported): May 23, 2017

LAREDO PETROLEUM, INC.

(Exact name of registrant as specified in charter)

Delaware (State or other jurisdiction of incorporation or

organization)

001-35380

(Commission File Number)

45-3007926 (I.R.S. Employer Identification No.)

15 W. Sixth Street, Suite 900, Tulsa, Oklahoma

(Address of principal executive offices)

74119 (Zip code)

Registrant's telephone number, including area code: (918) 513-4570

Not Applicable

(Former name or former address, if changed since last report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

o Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)

o Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

o Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

o Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging Growth Company o

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. o

Item 7.01. Regulation FD Disclosure.

On May 23, 2017, Laredo Petroleum, Inc. (the "Company") posted to its website a Corporate Presentation (the "Presentation"). Dan C. Schooley, Senior Vice President—Operations, will use portions of the Presentation in connection with the UBS Global Oil and Gas Conference on May 23, 2017 in Austin, Texas. The Presentation is available on the Company's website, www.laredopetro.com, and is attached to this Current Report on Form 8-K as Exhibit 99.1 and incorporated into this Item 7.01 by reference.

All statements in this Item 7.01, the Presentation and any oral statements made during the conference, other than historical financial information, may be deemed to be forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance, and actual results or developments may differ materially from those in the forward-looking statements. See the Company's Annual Report on Form 10-K for the year ended December 31, 2016 and the Company's other filings with the SEC for a discussion of other risks and uncertainties. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

In accordance with General Instruction B.2 of Form 8-K, the information furnished under this Item 7.01 of this Current Report on Form 8-K and the exhibit attached hereto are deemed to be "furnished" and shall not be deemed "filed" for the purpose of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section, nor shall such information and exhibit be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.

Exhibit Number

99.1 Presentation dated May 23, 2017.

Description

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

LAREDO PETROLEUM, INC.

Dated: May 23, 2017

By: /s/ Richard C. Buterbaugh

Richard C. Buterbaugh Executive Vice President and Chief Financial Officer

Exhibit Number

99.1

Presentation dated May 23, 2017.

Description

Forward-Looking / Cautionary Statements

This presentation, including any oral statements made regarding the contents of this presentation, contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical fact, included in this presentation that address activities, events or developments that Laredo Petroleum, Inc. (together with its subsidiaries, the "Company", "Laredo" or "LPI") assumes, plans, expects, believes or anticipates will or may occur in the future are forward-looking statements. The words "believe," "expect," "may," "estimates," "will," "anticipate," "plan," "project," "intend," "indicator," "foresee," "forcest," "guidance," should," "would," "could," "could," "sogal," "target," "suggest" or other similar expressions are intended to identify forward-looking statements, be a sence of these words does not mean that the statements are not forward-looking tatements from this presentation specifically include the expectations of plans, strategies, objectives and anticipated financial and operating results of the Company, including the Company's drilling program, production, hedging activities, capital expenditure levels and other guidance included in this presentation. These statements are based on certain assumptions made by the Company based on management's expectations and perception of historical trends, current conditions, anticipated future developments and rate of return and other factors believed to be appropriate. Such statements are subject to a number of assumptions, risks and uncertainties, many of which are beyond the control of the Company, which may cause actual results of differ materially from those implied or expressed by the forward-looking statements. These include risks relating to financial statements as a result of asset impairments and revisions to reserve estimates, availability and cost of rilling equipment and personnel, availability of sufficient capi

Any forward-looking statement speaks only as of the date on which such statement is made and the Company undertakes no obligation to correct or update any forward-looking statement, whether as a result of new information, future events or otherwise, except as required by applicable law.

The SEC generally permits oil and natural gas companies to disclose proved reserves in filings made with the SEC, which are reserve estimates that geological and engineering data demonstrate with reasonable certainty to be recoverable in future years from known reservoirs under existing economic and operating conditions and certain probable and possible reserves that meet the SEC's definitions for such terms. In this presentation, the Company may use the terms "unproved reserves," "resource potential," "estimated ultimate recovery," "EUR," "development ready," "horizontal productivity confirmed," "long and the terms." "LUR," "development ready," "horizontal productivity confirmed," "horizontal productive that may be potentially estimates of hydrocarbons that may be added to proved reserves, largely from a specified resource play potentially supporting numerous drilling locations, which, when compared to a conventional play, typically has a lower geological and/or commercial development risk. The Company does not choose to include unproved reserves restimates and/or actual weal complete and hydrocarbon quantities that may be potentially supporting numerous drilling or recovery," or "EUR", refers to the Company's internal estimates of per-well hydrocarbon quantities that may be potentially and and/or actual weal to and/or actual weal to the actual quantities that may be utimately recovered from the proved reserves are unknown. Factors affecting ultimate recovery, or "EUR", refers to the Company's internal estimates of per-well hydrocarbon quantities that may be potentially indi

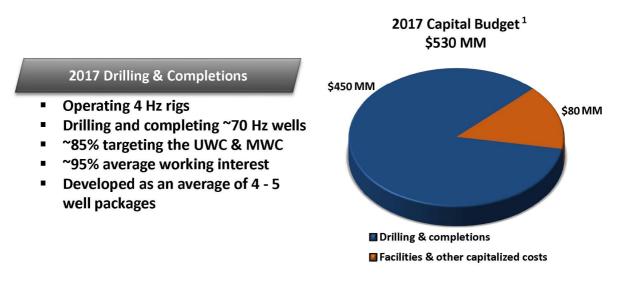

This presentation includes financial measures that are not in accordance with generally accepted accounting principles ("GAAP"), including Adjusted EBITDA. While management believes that such measures are useful for investors, they should not be used as a replacement for financial measures that are in accordance with GAAP. For a reconciliation of Adjusted EBITDA to the nearest comparable measure in accordance with GAAP, please see the Appendix.

1Q-17 Highlights

- Grew production ~13% from 1Q-16
- Completed 13 Hz wells with an average lateral length of ~9,900'
- Conducted drilling operations on 5 Hz wells with anticipated lateral lengths between 14,000' and 15,600'
- Reduced unit LOE to \$3.60 per BOE, down 26% from 1Q-16
- Recognized \$5.8 MM in cash benefits from LMS field infrastructure investments
- Grew transported volumes on Medallion-Midland Basin system by 79% from 1Q-16

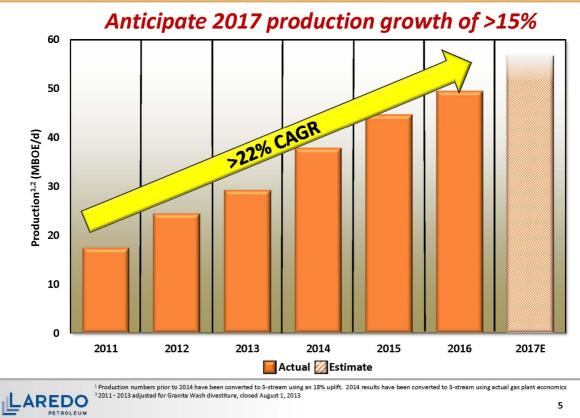

2017 lateral length expected to average ~10,000'

4

¹ Does not include acquisitions or investments in Medallion-Midland Basin system

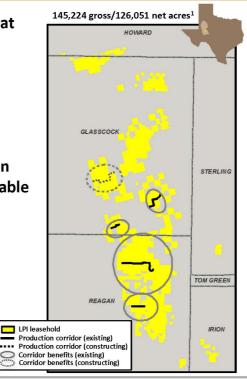

Consistent Production Growth

Capitalizing on Contiguous Acreage Position

- The company has identified >2,000 locations that support lateral lengths of 10,000'+ on its contiguous acreage
- The expected average lateral length for wells drilled in 2017 is ~10,000'
- Centralized infrastructure in multiple production corridors and the ability to drill long laterals enable increased capital and operational efficiencies

~85% of acreage HBP, enabling a concentrated development plan along production corridors

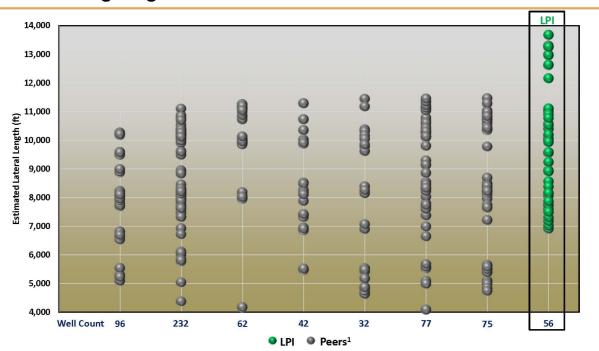

.... 0

Peer-Leading Long-Lateral Execution

LPI has drilled 7 of the 12 longest laterals in the Midland Basin

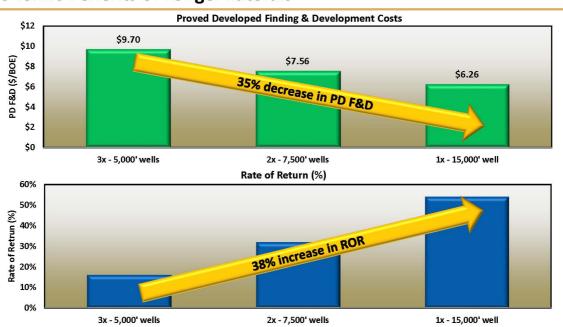

¹ Peers: Callon, Diamondback, Encana, Energen, Parsley, Pioneer & RSP Permian Note: Data is from IHS Enerdeq for the period of 04/01/2016 – 3/31/2017 for Glasscock, Howard, Irion, Midland, Reagan and Martin & Upton counties, TX wells with lateral length greater than 4,000'

Laredo's Long Laterals Maintain Productivity

Laterals longer than 10,000' show <u>NO</u> productivity loss

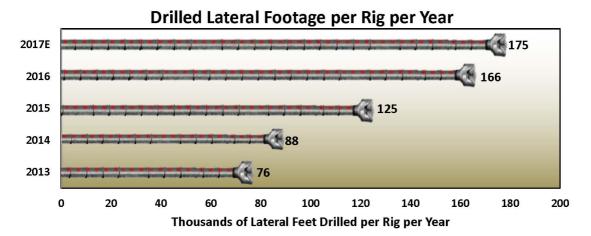

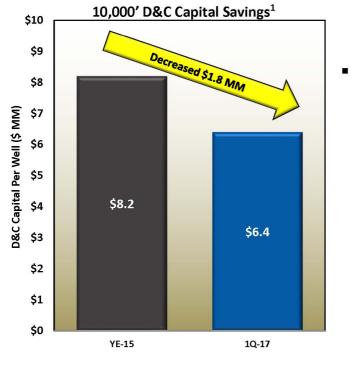

Economic Benefits of Longer Laterals

Longer laterals develop equivalent resources for reduced capital, yielding capital efficiency and rate of return improvements

Note: Utilizing 75% NRI and EUR of 1.3 MMBOE per 10,000' lateral Utilizing flat benchmark of WTI: \$56.10/Bbl & HH: \$3.00/Mcf and flat realized pricing of WTI: \$50.49/Bbl, HH: \$2.16/Mcf & NGLs: \$17.95/Bbl

Significant drilling efficiency improvements realized without material increases in capex per rig, improving capital efficiency

Drilling & Completions Efficiencies Drive Savings

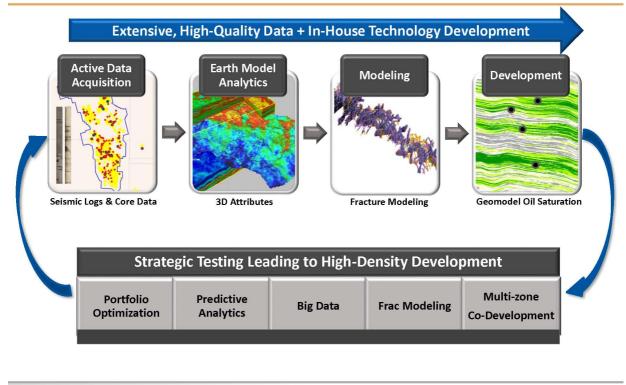

- Longer laterals
- Multi-well packages
- Zipper fracing
- High-spec rigs

Focused on capital efficient drilling & completion operations

¹ Representative of multi-well pad costs Note: D&C capital includes: \$1 MM for 1,800 lb/ft sand, pad preparation, well-site metering, heater treaters, separation equipment & artificial lift equipment

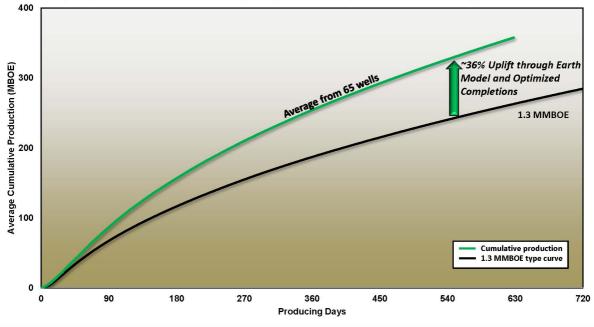

Accelerating Learning to Enhance Shareholder Returns

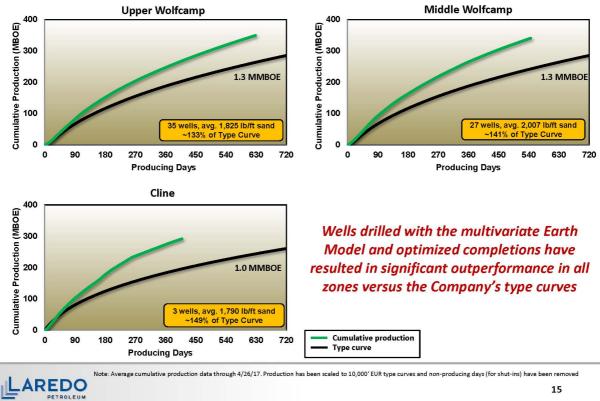

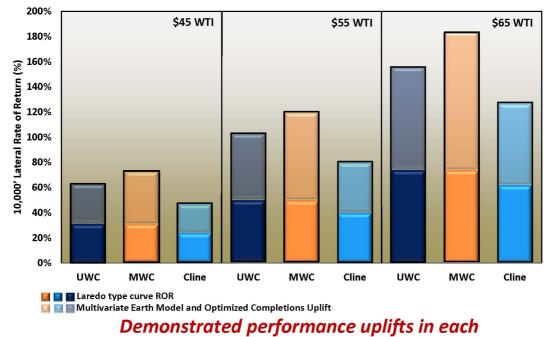

AREDO PETROLEUM ¹ Average cumulative production data through 4/26/17. This includes 65 Hz UWC/MWC wells have utilized both the Earth Model and optimized completions with ave. ¹,900 lb/ft sand Note: Production has been scaled to 10,000' EUR type curves and non-producing days (for shut-ins) have been removed 14

Multivariate Earth Model Enhancing Production

Multivariate Earth Model Driving Meaningful Uplift in Returns

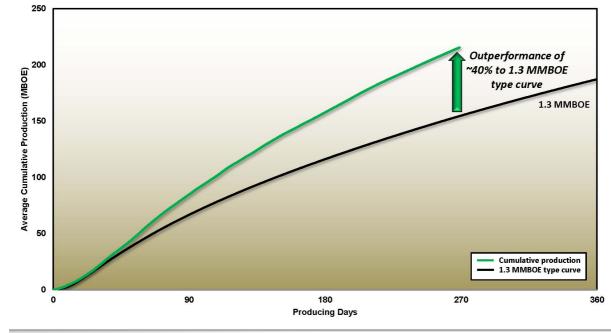

zone yield significant return improvements

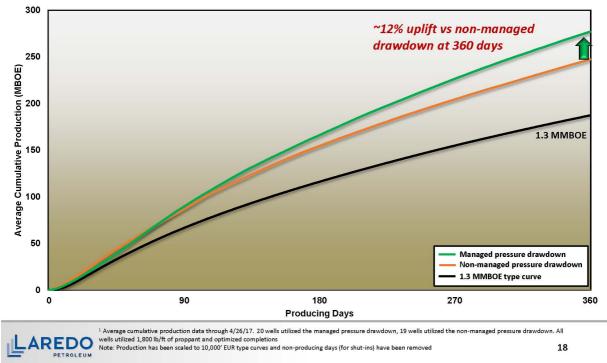

Note: Rate of returns calculated using benchmark prices of WTI: \$45.00/Bbl, \$55.00/Bbl, \$65.00/Bbl, \$65.00/Bbl, \$65.00/Bbl, \$35.00/Mcf, \$3.25/Mcf, \$3.50/Mcf, \$3.50/Mcf and realized pricing of WTI: \$40.95/Bbl, \$50.05/Bbl, \$59.15/Bbl & HH: \$2.10/Mcf, \$2.28/Mcf, \$2.45/Mcf & NGLs: \$14.40/Bbl, \$17.60/Bbl, \$20.80/Bbl ROR includes static capital for 10,000' laterals and uplift reflective of current multivariate Earth Model and optimized completions outperformance above type curve by target and can change based on observed performance

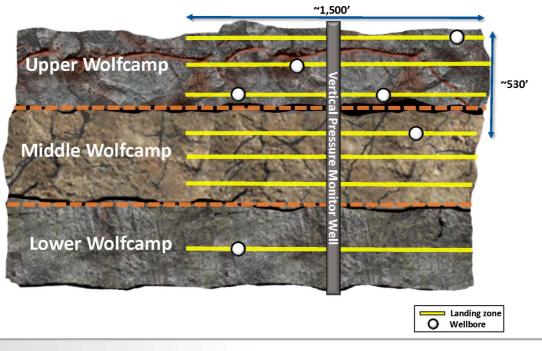

Average cumulative production data through 4/26/17. This includes 13 Hz UWC/MWC wells have utilized both the Earth Model and optimized completions with ave. 2,400 lb/ft sand Note: Production has been scaled to 10,000' EUR type curves and non-producing days (for shut-ins) have been removed 17

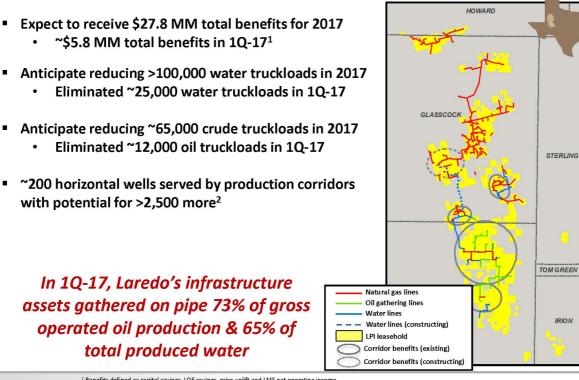

Prior Investments in Infrastructure Providing Tangible Benefits

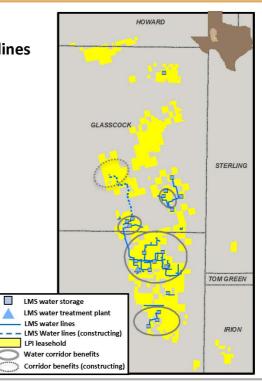

¹ Benefits defined as capital savings, LOE savings, price uplift and LMS net operating incom ² Includes Western Glasscock production corridor, which is currently under construction

AREDO Note: Infrastructure includes crude gathering/transportation, water gathering, distribution & recycle, natural gas gathering and centralized gas lift

Significant Benefits through Water Infrastructure Investments

- Water infrastructure consists of:
 - 78 miles of total water gathering pipelines
 - Recycling plant capable of processing 30,000 BWPD
 - Linked water storage assets with >8 MMBW capacity
 - Total storage capacity of 12 MMBW
 - Access to ~340 wells with ~510,000 BWPD refresh rate
- Enables drilling of multi-well pads
- Yields significant capital and LOE savings
- Minimizes trucking

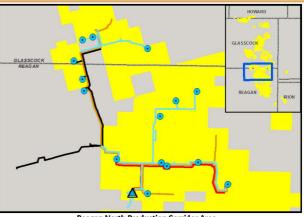

Water Infrastructure Capital and LOE Savings

- . 3.1 MMBW (65%) of total 1Q-17 produced water was gathered on pipe
 - Expected to increase to ~75% for FY 2017 •
- 1.4 MMBW (30%) of total 1Q-17 produced water was recycled by LMS
 - Expected to increase to ~57% for FY 2017 •
- 3.5 MMBW (30%) of water for completions in я. 1Q-17 was supplied with recycled water
 - Expected to average ~20% in 2017 ٠

	LPI Financial Benefits (1Q-17)					
LMS Service	Category	(\$/BW)	(\$ MM)			
Produced Water (Gathered vs Trucked)	Capital & LOE savings	\$0.62	\$1.9			
Produced Water (Recycled vs Disposed)	Capital & LOE savings	\$0.23	\$0.3			
Frac Water (Recycled vs Fresh)	Capital savings	\$0.20	\$0.7			

Reagan North Production Corridor Area

LPI leasehold **Receipt** point • ▲ LMS Water Treatment Facility

LMS produced water pipelines LMS fresh water pipelines LMS recycled water pipelines 3rd party pipelines

LMS' water gathering system is expected to eliminate >100,000 truckloads of water in 2017

Note: 2017 estimates as of 5/1/2017

LMS Crude Gathering System Benefits

- 44 miles of crude oil gathering lines
- 2.2 MMBO (73%) of gross operated production in 1Q-17 was gathered on pipe
- Reduces time from production to sales
